Detective Owl is a collection of 4444 unique NFTs with each having their own attributes. Each owl has its unique identity. Every detective is different and the best detective having one of a kind rarity. These detectives are here to stay and will be dominating the NFT space with their unique skill set to investigate and solve crimes in the metaverse.

## ROAD MAP

### PHASE 1 COMMUNITY BUILDING

The very first step is build a concrete community. The population need to build a relation with their detectives to trust them in solving their crimes, and ensure justice given to them.

### PHASE 2 MINING

In this phase we start putting our detectives to the job. minting of 4444 unique NFTs begins. Some detectives have unique capabilities which will be revealed in later stages.

### PHASE 3 DOWL ECOSYSTEM

In this we task the detectives and put their skills to test. Here all your detectives will be able to stake their abilities for the DOWL token.

### PHASE 4 GIVEAWAYS AND MERCH

Once the Detectives have proved their mettle and established themselves, it is time celebrate by giving back to the wonderful community. Free giveaways of DOWL tokens and cool merchandises.
